THE BEST LAXATIVE

To keep the bowels regular the best laxative is outdoor exercise. Drink a full glass of water half an hour before breakfast and eat an abundance of fruit and vegetables, also establish a regular habit and be sure that your bowels move once each day. When a medicine is needed, take Chamberlain's Tablets. They are pleasant to take and mild and gentle in effect. Obtainable everywhere.—Adv.

LOGAN BANKS WILL CLOSE AT 3 P. M.

For some time past the banks of Logan have not followed the universal custom of closing promptly at 3 o'clock p. m. All banks are under government supervision, either national or state, and complying with recent instructions from the government, together with the best judgment of the officers and directors of the banks, the following agreement has been entered into:

"Beginning August 1, 1916, the undersigned banks of Logan will close promptly at 3 o'clock p. m. except Saturdays, when they will close at 1 o'clock p. m. This action is taken at the instance of the National and State Banking departments.

THATCHER BROS. BANKING CO. H. E. Hatch, President.

FIRST NATIONAL BANK, H. E. Crockett, Cashier.

CACHE VALLEY BANKING COMPANY, J. E. Shepard, Cashier.

FARMERS & MERCHANTS SAVINGS BANK, O. W. Adams, Cashier.

A few of the reasons for the above are:

First—The funds of the banks are endangered by being exposed after banking hours while the accounting departments are completing the day's business.

Second—Inasmuch as practically all of the mechanical work of the bank is taken care of after 3 o'clock p. m. it has been proven that the efficiency of the working force is materially weakened by being interfered with while attending to the daily business of the bank.

AUSTRALIANS AND GENERAL BIRDWOOD.

"Today the Australians had their first big test in France," says a recent dispatch from the British-German front. "The free limbed sons of the Southern Cross charged from their trenches in the darkness against the new German trenches around Postieres. People had said that either the Australians would get there or be killed, and the surprising thing, the wounded say, is how few were killed. 'Birdie' had his plans made, all right," say the Australians. "He always knows what he is doing." 'Birdie' is the nickname of General Birdwood.

The Greatest Love.

No language can express the power and beauty and heroism and majesty of a mother's love. It shrinks not where man cowers, and grows stronger where man faints, and over the wastes of worldly fortune sends the radiance of quenchless fidelity like a star in heaven.—E. H. Chapin.

Wheat Crop On Land of Drainage Project

Some of the best wheat crops in Cache Valley are growing this year on land owned by the Logan Land and Drainage Company. Those crops are but samples of what can be done on any part of our project when the soil is drained and properly cultivated. The land has done it once, and part of it is doing it now; when the water table is lowered by our tile drain system and the alkali is reduced any good farmer can bring these lands back to their former productive power.

Why let your sons go to Idaho, Wyoming, Nevada, Canada, and Mexico to farm unknown lands when we have land right at home ready to produce as heavily as any lands elsewhere? Why not keep your sons about you and build up this favored spot? We have the land that needs your sons' work and that will bring an independent living to them. Just a little effort on your part will start them in life on a sound basis. Our terms are such that any man can meet them. HELP YOUR SONS TO GET EXCELLENT LAND THAT HAS EVERY CHANCE TO DOUBLE IN VALUE WITHIN A VERY SHORT TIME.
